

National Community Mental Health Transformation

The following resources have been developed to support the national roll out and implementation of the community mental health transformation.

1

Community Mental Health Transformation Animation

This 5 minute animation illustrates the vision for Community Mental Health transformation. A plain English version developed with input from service users and people with LDA can be found on the link here.

2

NHSE/I Early Implementer Learnings Report

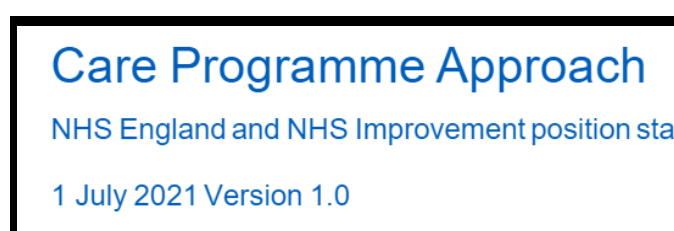

This 'how-to-guide' focuses on practical examples and case studies for transformation from the 12 early implementer sites

3

The King's Fund: Transforming Community Mental Health Services

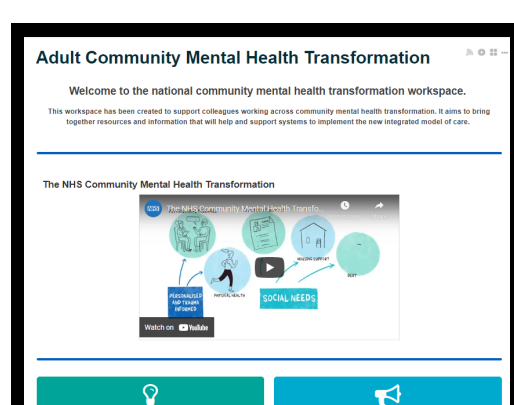

This report synthesises the principles, insights, and lessons shared by early implementer sites as part of the King's Fund-led action learning sets.

4

Care Programme Approach Position Statement

This position statement sets out national steer on shifting community mental health care away from the Care Programme Approach

5

Community Mental Health Transformation Resource Repository

The NHS Future Collaboration platform on community mental health transformation includes local and national resources and best practices to support the delivery of the community mental health transformation.
